

BDO Grind Tracker

Welcome to the documentation for the BDO Grind Tracker!

The BDO Grind Tracker is web application to effectively track progress of grinding sessions. It provides basic analytics and overview of past sessions that were manually recorded. It includes features:

- Complete overview of every recorded session to form a total statistics
- Provides creating, editing, deleting sessions
- Includes History of created sessions
- In-depth statistics about each sessions
- All major sites for grind with statistics from entered sessions
- Server sided API

Homepage

Is used as landing page where are 5 statistics boxes:

- Total earned -> Represents number of sum of all entered sessions raw earnings
- Earnings average -> Represents number of average from all entered sessions raw earnings
- Top site -> Will be showing TOP SITE by raw earnings (This will be object with overview -> Total time spend, Total earnings, Average earnings, Total spend)
- Time spent -> Represents number of sum of all entered sessions Time Spent

There will be possibility to add new session from this page and navigate through navigation bar.
